Minister for Fire and Emergency Services  
PO Box 15457  
CITY EAST QLD 4002

Dear Minister Crawford

As a matter of clarification regarding recommendation 9 of the 2018 Queensland Bushfires Review, I advise that the desired outcome of the recommendation is, given the propensity for large scale events in the future, to enhance the ability for the reduction of risk through consistent and practical means of identifying, implementing and monitoring mitigation activities at a local level.

It is not the intent of the recommendation to initiate legislative review or reform of any particular piece of legislation but to develop improved means of navigating and applying existing legislative frameworks to achieve the above.

Yours sincerely
